About Company

Empowering brands to innovate, grow, and lead in the digital age.

At Slusstech, we are the architects of digital evolution. Founded with the vision to empower businesses through technology and creativity, we specialize in delivering top-tier solutions in digital marketing, branding, web development, mobile app development, and software engineering.

Driven by innovation and guided by strategy, Slusstech is more than just a service provider—we are your growth partner. With a team of passionate experts and a 360° approach, we bring ideas to life and deliver measurable results that matter.

CEO Statement

Er. Sailesh Bhattarai

SlussTech was never just a company, it's a movement.

We wanted to give local businesses the tools to stand out globally, and to tell their stories through branding and technology. As CEO, my commitment is to keep this vision alive and evolving—because Nepal deserves global attention, and we're here to help make that happen.

Our Mission

Mission

At Slusstech, our mission is to deliver impactful, end-to-end digital and IT solutions that empower businesses to thrive in a competitive landscape. Here's how we bring this mission to life:

- Client-Focused Solutions
- Innovation at the Core
- End-to-End Services

Vision

To become a global leader in digital transformation by helping brands innovate, grow, and succeed in the digital world.

- Excellence in Execution
- Result-Driven Approach
- Trust & Transparency

Our Vision

Discover

We listen, understand, and research your market.

Strategize

We plan and outline the best approach.

Execute

We build, design, and market with precision.

Deliver

We launch and optimize for maximum ROI.

Support

We don't disappear after delivery. We stay to scale.

*The best way to
predict the future is to
invent it.*

Board Of Direction

Ujjwal Baral

Tech is more than code—it's the backbone of transformation. We've built SlussTech with scalability, innovation, and purpose in mind.

Susan Ghimire

At SlussTech, operations mean more than systems. We're building bridges between vision and execution, ensuring every client gets not just a service

Board of Direction

Sangam Sapkota

Chief Marketing Officer (CMO)

Grow the brand, attract customers, and drive sales through effective marketing and communication.

Our Teams

At Slusstech, we are more than just developers and marketers — we are creators, problem-solvers, and strategists united by one mission

Why Choose Us?

At Slusstech, we don't just build websites or run ads—we build digital experiences that drive results and accelerate growth. Here's why clients trust us:

All-in-One Digital Partner

From branding to web/app development, digital marketing to software solutions

Strategy Meets Creativity

We blend data-driven strategies with bold, creative thinking. Solutions that don't just work—they stand out.

Results-Driven Approach

We focus on measurable impact. Whether it's leads, traffic, conversions, or user engagement—we make sure our work delivers real ROI.

Why Choose Us?

We Treat Your Business Like Ours

Your success is our mission. When you grow, we grow. That's the Slusstech promise.

Scalable & Secure Technology

Our web, app, and software solutions are built with clean code, security best practices, and scalability in mind

”

We weave code with creativity, and strategy with soul — turning ideas into digital stories that spark growth and inspire the world

Our Projects

Our portfolio showcases the depth of our expertise and the breadth of our creativity. At Slusstech, every project is a reflection of our passion, precision, and purpose

01

Project Overview

We partnered with Bhaktapuer wellness, a rising brand, to design and develop an online presence. The goal was to create a high-converting platform with a premium experience to users.

02

Challenge

The client lacked a clear brand identity and digital presence. Their previous website had a slow loading time and poor navigation. Product pages were not optimized for SEO or conversions. The mobile experience was inconsistent and affected sales.

03

Project Solution

Crafted a clean, minimal visual identity aligned with the brand's aesthetics. Applied SEO best practices and product-level optimization for better search visibility and higher conversions and user-friendly navigation. Integrated responsive design, secure payment gateways, and user-friendly navigation. Developed a custom-designed eCommerce platform using modern frameworks for speed and scalability.
